CBM 10**
\$24.95*

Mura CBM10 1980

3 FUNCTION MODEL
MURA MOD. CBT 25
SWR/Power/Antenna Impedance
matcher. Incorporates SWR, power scale
for measuring RF output and antenna
matcher. You can get the lowest possible
SWR while maintaining optimal
transceiver output. Illuminated scale with
on/off switch. 2 feet connecting cable and
plug. This is a quality unit. Range 25-140
ohms. Designed for CR use.
\$39.95*

Mura CBT 25 1980

FULL FUNCTION METER

MURA CBM 40 METER

Measures SWR and relative field strength for checking and tuning the antenna. RF power output from the transceiver and modulation level. Supplied with full instructions. Ideal gift for the dedicated CBer.
